

Comparative Analysis of Skyline and SmartPeak Performance in Quantifying a 60-Biomarker Panel in Plasma from Inflammatory Bowel Disease Patients

Dragana Noe, PhD
Biomedical Scientist
PBL

PBL Health Surveillance Panel (HSP)

- Off-the-shelf 60 biomarker targeted MRM assay
- 31 biomarkers on FDA approved list
- 111 monitoring peptides, 2 transitions per peptide
- Holistic view of health and wellness
- Insights for more than 14 disease states
- Measures inflammation, immunity, multiple organ function, or health status after surgery

42 Healthy Controls

42 IBD Cases
