

January 20, 2023

To:

Gary Kruppa, Ph.D.  
Vice President Omics  
Bruker Daltonics.

Dear Dr. Gary Kruppa:

We (the signatories below) would like to express our sincerest appreciation for the strong support Bruker has given the Skyline project over the past 11 years, and especially for funding the efforts of the Skyline team to continue improving Skyline and to ensure it exploits the benefits of Bruker instruments to the fullest extent possible. We understand Skyline support for Bruker instruments has benefited greatly from Bruker contributions of software libraries (such as recently added TIMs support), as well as direct involvement in feature design, testing and feedback. We would like to encourage you to continue this close relationship with the Skyline team.

That Skyline continues to grow and improve with the instruments and advances in the field is critical. The team behind these improvements also offers unparalleled support and instruction, in their documentation, webinars and courses.

Again, thanks to Bruker Daltonics for supporting this incredible community asset.

Sincerely,

Michael MacCoss, Professor  
University of Washington, MacCoss Lab

Brendan MacLean, Principal Software Engineer  
University of Washington, MacCoss Lab
